

## Eco-Friendly Anyone?

For the last year we have been hearing a lot about being earth-friendly and going *green*. We here at Big Sky Sewing Kits (BSSK) want to help you do your part. Making and then using a BSSK will allow you to reuse a market sac at the grocery store several times for many years, we use very durable materials. You could use a tote bag instead of a plastic grocery sac for transporting anything. So Go-Green with BSSK this year!

## Medium Anyone?

After a few suggestions from our valued patrons we have developed a new size duffle bag; we will now be offering an extra small, small, medium and large Big Sky Duffle Bag. We are also developing two new kits; a boot bag so you can store and transport your boots and a fun expandable bag so it can grow as your shopping does! Look for updates on our website; [www.bigskysewingkits.com](http://www.bigskysewingkits.com)

## Circle Relief?

One of our most loyal customers and long time user of BSSK has made a wonderful suggestion to making the sewing of the circles go much smoother for you and your students. If you have access to a 1/4" presser foot for your sewing machines utilize it for those bag ends. You don't even need to pin when using the 1/4" foot; just slow down and ease all the way around and voila a perfect circle. No need to worry about the change in seam allowance either; we here at BSSK have tested the method and boy will it save some headaches!

## Top Ten List!

### Kit #1 Cosmetic/Shave Bag

1. Great for travel!
2. Convenient for trips!
3. Great for men and women!
